Terms and conditions

- + A site and floor plan is required when applying to connect to sewer.
- + All new residential sewer connections require water (including recycled water, if available) to be applied for at the same time.
- + Plumbing/drainage contractor is responsible for notifying the local council or VicRoads of the intention to commence works and notify them of the completion of the works in accordance with the *Road Management Act 2004*. The Road Management Authority may apply penalties for non-compliance.
- + Plumber/drainage contractor to provide appropriate barricading and fully cover ALL excavations, or use temporary cyclone fencing, if left unattended.
- + For cutting into a sewer main you must comply with the legislative requirements mentioned above, plus the OH&S (Confined Space) Regulation, and Greater Western Water's (GWW) WW OHS -032 Confined Space Entry Procedure.
- + If the property is currently an untitled lot in a subdivision, it is also mandatory to provide the Plan of Subdivision number. Connection to such properties will not be permitted until GWW has a council-approved plan of subdivision.
- + GWW (and its agents) bears no legal liability for the accuracy of information pertaining to the location of water and sewer services. Plans are based on available information only. If you have difficulty locating services, please contact us for further assistance.
- + These conditions are binding on the current and future owners and occupiers of the property under section 145 of the *Water Act 1989*.
- + By Lodging this application, I do so as the property owner (or am authorised by the owner) and will therefore be responsible to meet all of GWW's requirements as specified and will obtain all appropriate permits prior to any works commencing.

GWW only allows connection to properties when GWWr's terms and conditions have been agreed. Please read the terms and conditions above and sign your agreement below.

I confirm that I have read and understood all the statements above.
